'Appreciation Days' Prizes, Parade Ready

The pleasant sound of crinkling dollar bills, more than 400 of them, will be heard next week when local business firms unveil the first edition of Appreciation Days.

The distribution of the funds will be made Saturday, May 23, at the market parking lot at Broadway and Olive streets at about 10 a.m. with the competition continuing until a winner is chosen.

Appreciation Days will be a continuing affair with a similar prize offering to be held each Saturday. Local firms, most of whom are participating, say that it is a method of telling local customers how much their patronage is appreciated.

The first winner will be named just after the KOGO sponsored antique car parade stops in Lemon Grove. The parade is scheduled to enter Broadway traveling east at 9:30 a.m. In the center business block, the caravan will stop and drivers will be given pies baked from Lemon Grove lemons. The pies are being baked by wives of the men who are members of local service clubs and the chamber. The Business Women's League is also giving a hand.

While Appreciation Days winners are being decided, a Kiddie Karnival will be in operation. Merchants who are giving consolation prizes for Appreciation days, are also supplying nickel-a-ride tickets which will be good from 10 to 12 noon Saturday. The Karnival will open Friday after school is out and run through Sunday except during Sunday morning when it will be closed

Contestants for Appreciation Days may get coupons from their favorite local merchants.

SCHOOL OVERRIDE TAX BILL TO PASS SAYS DONOVAN

The imminent passage of a major school tax bill of statewide impact was announced today by its author Assemblyman Richard J. Donovan (R-77th District). "My bill has cleared the Assembly and two Senate committees and has survived two of the three readings required by law in the Senate," Donovan said. "Only the final reading, vote of approval, and governor's signature are needed."

Donovan's bill raises the statutary minimum school property tax rate which may be levied by school boards without an override election. "These rates haven't been changed since 1937 and are obsolete and unrealistic in view of the cost increases since then. In districts where voters have consistently refused to authorize overrides, the children have suffered by being deprived of adequate schooling," Donovan said.

Donovan cited the San Ysidro and South Bay elementary districts where voters had repeatedly defeated override taxes. At one time, the San Ysidro district was unable to operate a new school building for lack of funds and the classrooms stood empty.

LG Homes Darkened By Freeway Crash

A Spring Valley woman. Helen F. Sweet, 24, of 10707 Jamacha blvd., was treated for minor shoulder injuries at Naval Hospital last week after her car went out of control May 6 on State Highway 94 and knocked down a utility pole.

The crash left more than 500 Lemon Grove homes and businesses without power.

The driver was westbound on the highway when she slowed to avoid a car ahead. Her car then went into the divider strip and hit the power pole, breaking off the top.

The accident took place on the highway between Massachusetts and Olive off ramps.

TEACHERS' OFFICERS — New officers were installed by the Lemon Grove District Teachers' Association at a chuckwagon type dinner May 7. Officers in the photo are: Thomas Brogan, 1st vice president; Marge Godwin, secretary; James Dawson, president; Joan Wittrock, treasurer, and Dick Needham, 2nd vice president. Not present for the photo was John Strawn, auditor.

Speaker for the program, which was held at the L.G. Junior High School auditorium, was Robert McKay, former newspaperman who is now assistant executive secretary of the California Teachers Association. McKay said California schools will need 15,000 more teachers a year for the next ten years just to catch up with the state's population explosion. More than 10 classrooms a day will have to be built to accommodate the explosion. He called for more state aid for school districts. "The cost per pupil has risen 48% while the state has increased its aid by 12%," he said. He called for school personnel to make a diligent effort to assure getting the state school aid initiative on the ballot this fall.

Master of ceremonies at the meeting was John Orcutt, coordinator of the CTA-Southern Section. Peg Lemmer, CTA past president, Southern Section and present director also took part.

Found damaged were: the rear window of a Falcon belonging to Stephen Thomas, school custodian, of 3570 Massachusetts; rear window of a Ford belonging to Jean Schnaubelt. of S.D.; side window of a Dodge belonging to Eula M. Williams, of 2047 Daytona dr., and the rear window of a Mercury belonging to Lester Cole of Clairemont.

Charges Customer With Taking Merchandise

A citizen's arrest was made last week by Armand Cantarini, manager of the Sav-on Drug store in Spring Valley Shopping Center, on Wayne Patterson, of 2042 Skyline dr., a 44 year old welder. Cantarini allegedly told Sheriff's Deputy F. E. Moyer, that the suspect had taken a package of slim mint worth $1.25 and a roll of adhesive tape worth 48c in his pocket as he checked out and paid for $15 worth of merchandise.

The suspect told the officer that he had intended to pay for the two items in his pocket but "had forgotten".

Dancer Subdued By 'Rent-It-Yourself' Cop

Sheriff's deputies subdued John Robert Reinhart, 18, of 233 Paden st., Spring Valley, Sunday following a fracas outside Fayaton Ballroom at Broadway and Olive st., Lemon Grove. Police reported that approximately "75 unruly juveniles" milled about during a brief fist fight at the close of the dance just after midnight. Reinhart said he saw a San Diego youth, John Graves embroiled in an altercation and went to his aid but was knocked down by the ballroom's private policeman whom Reinhart called a "rent-it-yourself" cop.

Reinhart was released to his parents after he allegedly admitted to sheriff's deputies that he had been drinking.

Car Curtain Taken

Lottie Kempton, 72, of 9155 Rosedale st., Spring Valley, reported that a plastic side curtain for her electric car was stolen from her garage. She said the curtain, worth $40, was left in an unlocked garage and that her property is surrounded by a high fence.

Vandalism Costly

More than $150 damage was done to Kent Osborne's house at 3958 Kentwood dr., Spring Valley, last week when vandals popped BBs through three windows and a sliding glass door. Broken also was a pull down lamp and cigareettes were ground into the carpet. Sunflower seeds were scattered around the house, he told police.

An electric drill, a carpenter's plane. a crescent wrench and a hydraulic jack were among the items taken, he told sheriff's deputies.

Druggist Back After 14 Weeks In Hospital

Harry Burris, operator of Lemon Grove Drug Store, has returned to Lemon Grove after 14 weeks in Providence Hospital, Seattle, Washington.

He suffered a collapsed artery in his left leg and Dr. Lester R. Sauvage, a Cardiovascular surgeon of the hospital, transplanted a vein from his arm to his thigh.

Burris also has a history of a heart condition. Doctors performed six operations while he was at Providence, some of them for an infection resulting from the leg artery trouble.

The hospital, according to Burris, has a record of many successful similar operations. Some, he said, were successful after they were considered not treatable in San Diego.

Burris is now able to walk and intends to return to the store in a week or ten days.

Taxes Can Be Lowered, Waste Eliminated Herman Snodgrass Tells L.G. Men's Club

Herman Snodgrass, a candidate for supervisor in the second district told members of the Lemon Grove Men's Club Friday that he wanted lower taxes and an elimination of waste in government. "I believe something can be done about it," he added.

The former Navy commader told of his experiences in the education field, military service and business.

He is a former faculty member of Colorado State University and was a staff lecturer at San Diego State.

For 19 years he served as training officer and personnel officer at the Naval Air Station, North Island.

In addition to lowering taxes and eliminating waste, Snodgrass said his platform consisted of promoting good government, retaining the Navy and aerospace industry in the district, making jobs by encouraging new industry and promoting the tourist industry.

Sharing the program with Snodgrass was Burke Ormsby, program director of KOGO-Radio-TV, who showed a documentary film about pay television in California.

Next week's speaker will be Reporter Dick Bowman of the San Diego Union, who will tell of his experiences in Alaska during the recent earthquake.

All men are invited to attend the meeting which will be at the Horseshoe Tavern, 7664 Broadway, Lemon Grove.

85 See Baxter Installed As Chamber Prexy

Forrest Baxter, veteran chamber of commerce member who was president of the Lemon Grove organization more than a decade ago, was installed as 1964-65 president Saturday at the Horseshoe Tavern.

More than 85 members, friends and spouses, took part in the ceremony which was presided over by Municipal Court Judge Luther N. Hussey.

In attendance were San Diego Mayor Frank Curran and County Supervisor David W. Bird. Prior to the ceremony a program of entertainment was presented. Thomas Backs School Prayer

Daniel B. Thomas, Republican candidate for Congress in the 37th Congressional District, last night told the North Park Unit of the California Republican Assembly that "nondenominational prayer in our public schools must be protected by constitutional amendment if America is to avoid serious erosion of our moral and spiritual values".

He said that "the fact that such prayer has become controversial is, in itself, a potent example of the nation's increasing moral decline".

"Prayer and Bible reading in the public schools are part of America's great heritage of religious expressions," the candidate said. "America's first schools were established so that children might learn to read the Bible. The Bible was the

L.G. School Budget $1,942,000-Up 2%

The Lemon Grove school board got a preliminary look at a proposed budget Monday night and found that the $1,942,000 total was $50,000, or two per cent greater than last year's.

Byron Netzley, district superintendent, pointed out that no provision had been made for any proposed salary increases now being negotiated by school personnel.

Paul Reynolds, district business manager, told the board there were few items that could be cut out.

The Board instructed Netzley to re-employ the 146 certificated and 90 classified personnel now on the district payroll.

Mrs. Betty Higgins was named principal of summer elementary schools which are scheduled to run from June 22 to July 24. Louis Poluzzi is principal of junior high classes.

The Board indorsed and agreed to actively support the California Teachers Assn. initiative measure for which enough signatures are wanted to put the issue on the ballot this year. It would provide more state aid for schools if voters approve it.

A meeting on May 19 at the La Mesa Education Center will be a public hearing on school district organization concerning the merging of Lemon Grove district with that of the La Mesa-Spring Valley district. Another meeting, on June 10, will be for discussing dividing up the personal property of the Grossmont high school district. The location of this meeting is yet to be decided.

Sheet-&-Mattress Crowd Resists Room Tax

The City of San Diego is going to invoke a four per cent room tax on hotels and motels just as soon as it can get City Council to give the proposition its OK.

The tax will produce more than $500,000 annually, most of which will be spent to develop tourism in the San Diego area by the Convention and Tourist Bureau. At present. the group has $100,000 a year to promote with. This would be increased to $300,000 which would be 60 per cent of the funds raised by the new tax. The rest of the money would be used to promote the new $21 million Community Concourse nearing completion in downtown San Diego.

The tax for promotion would be added to the four per cent State sales tax already being collected.

We think the request for the new tax ought to be turned down. It has not been shown that the $100,000 now being allotted to this job is being properly spent. As a matter of fact it was only a few weeks ago that a study on S.D. County tourist promotions showed that more than 75% of the promotional funds were being spent within 100 miles of here. If there is one place you don't have to tell people what San Diego is about it is in the local area. They already know. These funds ought to be recalled and used in Minnesota, and Iowa. In Chicago and in New York. People away from here are the people who bring "new" money to town.

We feel that a room tax is unfair. The City gets a bite out of the State sales tax tourists pay as they buy booze, food, entertainment, gasoline and other touring necessities as they flock to San Diego in growing numbers. Why hasn't increasing amount of that money been more properly spent? Why make the sheet-and-mattress crowd pay the bill when the cost should more properly be paid by all of the industries benefiting directly from these welcome visitors with their pockets bulging with crinkle-crinkle?

The City believes tourists are not coming here in as great numbers as they should. This seems an admission that the money spent on promotion is not being used to the best advantage. The people who operate hotels and motels said

LET US ALL PRAY TOGETHER AS A FAMILY

Someone has said, "The will to believe is strong, but the will to be fooled is greater." Man will believe that which he wants to believe. Eternal salvation is found through faith in Jesus Christ. To believe this is life. To be fooled by unbelief is death.

Girl Scout Chatter

by Mary D. Giacinto

Brownie troop 18 led by Esther Bethel had a great day at the zoo recently. But their life has a serious side too. Pamela Osinski had a sister in the hospital who kept asking her to bring books. Pamela thought how nice it would be for her Brownie troop to gather up children's books and donate them to Children's Hospital. Mrs. Bethel agreed and her girls voted it as a special project for their troop. What a nice idea Pamela Osinski. I'm sure you will feel glad all over when you think of the happy smiles the books will bring sick children. Bless you, honey.

Do you have idle books in your home that could perhaps coax interest from a listless child? Donations will be accepted at the San Miguel School office, San Miguel, Lemon Grove. (No comic books, please). School phone is 463-8377.

The book-bundles of cheer will be donated to Children's Hospital on May 19. Mrs. Brown will accept them for the hospital. Your chance to do a good deed. Don't pass it up.

There will be a girl scout council meeting on April 21 for alternates and delegates.

A neighborhood meeting will be held at the L.G. Youth Center, May 13 at 8:30 a.m.

Community Press Vital to Towns

"Without its newspaper. the small town American community would be like a school without a teacher, a church without a pastor or a home without a mother.

In the aggregate, the weekly newspaper determines the outcome of more elections, exerts a greater influence for constructive community progress and is read longer by more members of the family than any other periodical publications.

Through service to its community the country weekly will not merely survive; it will continue to flourish as the more representative, most distinctive, most wholesome type of journalism America has produced."

Foreign Policy Makers Have A Singleness of Mind—Confused.

Students of our foreign policy will be heartened to know that the confusion surrounding the policy is built in. For a while we had the queasy feeling that we lacked the mental ability to absorb such weighty matters — that these were matters for historians, pedants and guys in government with an intellect of 402.

We were able to pair off some policy statements recently, with the help of the Congressional Newsletter and we began to see that it is not we who is confused. Look:

The Administration's top foreign policy spokesman in the Senate, Foreign Relations Committee Chairman J. William Fulbright dismissed Cuba as nothing more than a "nuisance".

The next day — Secretary of State Dean Rusk insisted that Castro was still a "menace".

U.S. Ambassador to Kenya, William Attwood, downgraded Communist activity in Zanzibar by saying that "as far as stopping subversion in Zanzibar, that's not our job — it's a job for the mainland Africans."

Four days later — Ass't. Secretary of State for African Affairs, G. Mennen Williams, pleaded before a Congressional committee for continued U.S. aid to African nations by saying "we cannot stand idly by and lose the initiative to Communism. He said only the U.S. could stifle Communist ambitions in Africa.

Secretary of Commerce Hodges, describing himself as a "seller", announced he was in favor of "maximum peaceful trade" with Communist countries in Eastern Europe.

Then he made a speech in which he insisted the time is "not yet" ripe for trade with Cuba. But, he suggested the time will be right in the future.

Secretary Rusk unveiled a new U.S. trade policy designed to "differentiate among Communist countries," excluding only Red China, N. Korea and Vietnam.

Two years ago — the Administration fought for the Trade Expansion Act which it insisted was designed "to prevent Communist economic penetration". At that time the enemy was seen as the entire Soviet bloc, not just Red China, N. Korea and Vietnam.

To date, reminds Sen. Roman L. Hrucka (R. Neb.) not one Administration official has called for a stiffening of our foreign policy.

Dear Editor:

We have written you before and you were kind enough to publish our letter in the personal column. At this time we have another announcement which may be of interest to old friends in the Spring Valley area.

We are very happy to advise that our youngest son, John S. Cobb, has just received an appointment to the United States Air Force Academy in Colorado and will enter the Academy this coming June 29th. John also received a principal appointment to the United States Coast Guard Academy which he will decline. His brother George N. was also appointed to the United States Air Force Academy and is completing his 4th class year this June. Both appointments were as a result of competitive examinations through nominations by Congressman Lionel Van Deerlin.

John will return to Spring Valley around the 10th of June to spend approximately two weeks with friends in the area before reporting to the Air Force Academy. We also plan to visit the area on home leave sometime shortly after August 15th.

We are very proud of both of our boys and we thought the above might be of interest to our many friends in the Spring Valley Area. For your information we still receive the Bulletin and enjoy it very much as always.

DOROTHY DIGS in the garden

If you are having trouble greening up your lawn, even though you have fertilized and watered regularly, consider that fertilizers sometimes become "locked" into the soil and are not readily available or acceptable to the digestive systems of many kinds of grasses and plants.

A good thing for you to try in a case of this kind is an application of fertilizer or soil conditioner containing Iron Chelates and trace minerals.

Many times alkaline water and soils combine to create growth stagnation and cause chlorosis in foliage. It would be wise to have both water and soil tested to help determine the cause.

Sometimes the cure can be accomplished by the simple addition of Ferrous Sulphate to the lawn at the rate of one pound for each 500 square feet of surface. One or two applications of this iron a year should help greatly to green up your lawn.

Zip Code Speeds Postal Service Says F. R. Faucher

The Post Office Department's ZIP code is an economy measure to cope with the nations increasing mail volume, said Lemon Grove Postmaster F. R. Faucher.

He said if it were not for ZIP code and the cooperation of the public, the post office department would soon be overwhelmed with the increasing volume of mail.

ZIP code has had wide acceptance but must depend on the voluntary co-operation of the mailing public for its continued progress, he said.

At the present time the scanner is designed to read only type-written numbers but it is hoped by postal officials that in the near future the scanner will be refined to read written numbers as well and sort letters at the rate of 17.000 an hour.

By using the ZIP code many things will be accomplished, Faucher said. "It will reduce the possibility of error, save money and speed delivery," he said.

PARCEL POST DELIVERY SPEED UP ORDERED

Postmaster General John A. Gronouski last week ordered the nation's postmasters to "speed up and clean up" parcel post delivery.

At the same time Gronouski reported that an analysis of his recent May 4 order on parcel post indicated that there will be almost no adverse effect on parcel deliveries. Instructions will be sent soon requiring that all parcels on hand each day in the early morning hours must be delivered the same day.

Under the directive no incoming parcel post shipments will be allowed to remain unworked on post office platforms, in tralers, or in railway storage cars. They will be processed so that carrier can make delivery the same day, Gronouski explained.

The new order is in addition to instructions effective this month ordering assignment of additional staffs to weekend duty in post ofices — a further step that will prevent mail congestion in post offices and speed deliveries.

Under the order placing more personnel on duty over weekends, the heaviest volume of incoming parcel post is delivered on Monday and the next heaviest deliveries are on Thursday and Friday. The net effect of the parcel post adjustment, officials believe, will be that parcels afected by the five-day week order will be even less than the six to eight per cent originally estimated — and probably will run only a few percentage points of the total incoming volume.

The Parcel Post Association reported "While it may save money, most important, from our viewpoint, the plan could improve parcel post service."

Here is another column by veteran writer Pete Odens of Imperial Valley. An interesting historian, his columns, which we will publish from time to time, will concern history of Southern California.

by Peter Odens

San Diego — Perhaps, if Governor Jose Maria Echeandia had not been so little in stature and, as a contemporary described him "thin and juiceless", the beautiful Josefa Carrillo would not have looked so deeply into the eyes of Captain Henry Delano Finch. But with the little governor courting the proud Josefa, she went out of her way to be friendly to the young captain and California became richer by a great love story. Connected with it was a scandal which should not have been. But let us take the events in their proper order.

In 1826. the newly appointed governor met the daughter of Joaquin and Maria Carrillo of San Diego at a party. Echeandia became so enamored of the young beauty that he decided to transfer the capital of what was then called Alta California from Monterey to San Diego so that he could be nearer to his love.

Josefa did not take the governor seriously and laughed at his atempts to sing songs under her window. She told her parents who believed that the match would be an excellent one that she wanted nothing to do with the "ugly, funny little man." Her parents, however, decided to give a party at which the two would have a chance to become better acquainted, and father Carrillo suggested that his daughter go to the good ship "Maria Costa" which was then anchored in San Diego harbor, to buy some silk for a new party dress.

The ship had just arrived from Massachuetts under the command of Captain Fitch, a tall. blue-eyed, ruddy complexioned man, and when Josefa's cousin Pio Pico (later on California's last Mexican governor) introduced the girl to Fitch, he invited the young sea captain to her party.

The evening of the big affair arrived. The Carrillo home was splendidly decorated, barbecued beef served to the hundreds of guests, and Don Joaquin himself contributed to the entertainment by giving a little concert on his violin. But when it came to dancing, Josefa danced only with Captain Fitch while Governor Echeandia could do no better than to throw furious glances at the handsome couple.

A few days later, Fitch appeared at the Carrillo home again and formally asked for Josefa's hand. This was a complicated matter. However, because of the difference of religion, as Fitch was a Protestant while the Spanish beauty was a Catholic. Fitch, however, promised to apply for Spanish citizenship and to change his religion, and finally the Carrillo's gave their consent. Fitch was baptized in the chapel of San Diego and changed his name to Enrique Domingo Fitch.

But when it came to the marriage ceremony, Domingo Carrillo, Josefa's uncle, arived with the news that Governor Echeandia had forbidden the marriage. and the wedding party broke up in great distress.

Just before dawn, Fitch returned to the Carrillo home. Josefa, who had been waiting for him, slipped out of the house to join him and her cousin Pio who had aligned himself with the lovers. In San Diego harbor, a boat took Fitch and Josefa to the ship "Vulture" which immediately lifted anchors and set sail for South America.

San Diego society was shocked, the Carrillos humiliated, and Encheandio enraged. But there was nothing they could do about it. A year later, the ship "Leonor" arrived in port and on it was Fitch and his wife together with their infant son.

The Carrillos received them with a little coolness, but Governor Echeandia still planned revenge. On his instigation, Fitch was brought before an ecclesiastical court. After a month-long investigation, Padre Sanchez of San Gabriel Mission declared that the marriage which Fitch said had been performed in Valiparaiso, Chile, was fully valid. However, because of the unconventional elopement it was decided that Fitch should be given some kind of punishment. He was asked to donate a bell weighing at least fifty pounds for the church of El Pueblo de Nuestra Senora la Reina de los Angeles de Porciuncula. This Fitch gladly did, and that was the end of the story until recently.

Shortly before his death. the famous actor Leo Carrillo in his book "The California I Love" discussed the scandal in which his ancestors were involved. And he revealed a secret that had been kept for a century and a half. During the night in which the lovers eloped, Pio Pico had arranged for a midnight ceremony in which Padre Menendez, risking his ecclesiastical standing and braving the wrath of Governor Echeandia, had actually married Josefa and Fitch. But the witnesses to the ceremony had been sworn to eternal secrecy.

Fitch and his wife settled down on a ranch and the young sea captain turned successful farmer. His wife bore him 11 children before he died at the age of 49. A picturesque peak at Healdsburg. Sonoma County was named in his honor.

MORE DEFENSE WORK SEEN FOR SAN DIEGO

WASHINGTON — Six major aerospace firms will send procurement officials to San Diego early next month to sound out the area's potential for an increased share of defense contracts.

Rep. Lionel Van Deerlin (D-San Diego) said invitations are being sent to more than 200 small manufacturers for a day-long Suppliers and Prime Contractors Forum at the Sands Hotel Wednesday, June 10.

Martin, Douglas. North American, Lockheed, Aerojet and General Dynamics have agreed to participate. Buyers for both the Navy and the National Aeronautics and Space Agency also will be present for individual consultation, Van Deerlin said.

The Congressman set two objectives for the event, explaining:

"First, it will allow the big aerospace firms a chance to outline their changing needs, and show how subcontractors can gain more orders. Second, it will give our local manufacturers a chance to meet personally the men from whom they seek orders, and to question them about individual problems."

Van Deerlin said every chamber of commerce in the county has helped by culling its lists of local industry, to determine which firms would be likeliest to benefit from the forum. However, he emphasized that any businessman hoping to bid on aerospace work should plan to attend, with or without an invitation.

Sieg Smith, administrative assistant to the Congressman, will coordinate arrangements for the event.

IMPACT
By Joan Taylor

Today we are living in a decade of impact — we have forcible contact with peoples of every nation. And right here in the San Diego area, we have have a coming together and a communication with people from every state in our own country. You'll see Country Squires from the Middlewest walking hand in hand with retired New England Executives for the East, who have come here to settle down in the City of Motion and begin a new way of life.

Yes, it takes impact to bring people together, and it takes impact to create new ideas, which will adapt themselves to new surroundings. The face of San Diego has changed due to impact, and the change can be seen in sparkling newly-created buildings growing out of native soil.

In our area it is very apt to be the work of the Ries Construction Company, of 5234 El Cajon Blvd., in San Diego — your reputable, dependable, state licensed building contractor, — and the men responsible for part of that new look! Specializing in apartment buildings, convention halls, and buildings for commercial use, you'll find quality workmanship and beauty of design in every Ries building in the City in Motion. Impact, yes.

LIVABILITY

By Joan Imig

Livability — what is it? The ability to enjoy life. Where? In your own circumstances, your own setting. Show me the man or woman enjoying his job, or his home environment, and you'll find that he or she has "livability", — adjusted and happy with his surroundings. Livability comes with knowledge and understanding of one's individual needs. Take any home that is livable and you'll find that the owners have livability — the ability to select the right home and make it livable.

Usually you'll find that these same people have gone to the trouble to select a quality electrical contractor to install and repair the proper electrical equipment to suit their individual needs. Such a contractor is Cummings & Myers Inc., of 3853 49th Street, in San Diego, serving the homeowner who cares enough about livabality to keep his home electrically alive. Whether you are installing new equipment, or altering your wiring, — be sure to call 283-2141, your dependable, reputable licensed, quality electrical contractor.

Bicycle Safety Program Given at Rancho School

The student council of Rancho Elementary School (David Zimmermen, president; Christine Cecil, secretary; and Haron Watkins, treasurer) recently stressed the need of safety to the general enrollment, at a special assembly. They invited Gene W. Seltzer, district safety consultant of the Automobile Club of Southern California to give a talk on bicycle safety.

Seltzer, who presented a film entitled, "Stop, Look and Think", stressed the need for safety while walking to and from school. Of particular interest was his talk on bicycle safety. He said that every child should be taught bicycle rules and laws at an early age. The Automobile Club has a number of cards available, on which are printed "Rules for Safe Bicycle Riding". Here are the rules:

1. Keep your bicycle in good mechanical condition (tires. chain, brakes, etc.)
2. Obey all traffic rules and signs — always give proper hand signals.
3. Walk your bike across busy intersections.
4. Always ride with the traffic and as close as possible to the right side of the road.
5. Be sure the roadway is clear before entering.
6. Always ride single file and watch for opening car doors.
7. Most bicycles are built to carry one person — YOU! and you alone.
8. If you must ride your bike at night be sure your headlight and rear reflector are in good working order.
9. Select the safest route to your destination and use it. Avoid busy streets and intersections.
10. Yield right of way to pedestrians.

A bicycle, Seltzer pointed out, is a vehicle, and as such, its operator should obey the laws. He recited the new bicycle laws, taken from Assembly Bill No 2196, as follows:

Every person riding a bicycle or driving an animal upon the highway has all the rights and is subject to all of the duties applicable to the driver of a vehicle by this division.

Every bicycle shall be equipped with a brake which will enable the operator to make one braked wheel skid on dry, level, clean pavement.

No person shall operate on the highway any bicycle equipped with handlebars so raised that he operator must elevate his hands above the level of his shoulders in order to grasp the normal steering grip area.

No person shall operate upon any highway a bicycle which has been modified or altered in such a way as to cause the pedal in its lowermost position to be more than 12 inches from the ground.

Every bicycle operated upon any highway during darkness shall be equipped with a white light vilible from a distance of 300 feet in front of the bicycle and with a red reflector on the rear, a type approved by the department which shall be visible from to the rear when directly in front of lawful upper beams of headlamps on a motor vehicle. A lamp emitting a red light visible 300 feet to the rear may be used in addition to the red reflector.

Every person operating a bicycle upon a roadway shall ride as near the right side of the roadway as practicable, exercising due care when passing a standing vehicle or one proceeding in the same direction.

A person propelling a bicycle shall not ride other than upon or astride a permanent and regular seat attached thereto. No person operating a bicycle upon a highway shall permit any person to ride on the handlebars.

No person operating a bicycle shall carry any backage, bundle or article which prevents the operator from keeping at least one hand on the handlebars.

The foregoing quantities are approximate only, being given as a basis for the comparison of bids, and the Board of Supervisors does not, expressly or by implication, agree that the actual amount of work will correspond therewith, but reserves the right to increase or decrease the amount of any class or portion of the work, as may be deemed necessary or expedient by the said Board of Supervisors.

All bids are to be compared on the basis of the Engineer's estimate of the quantities of work to be done.

No bid will be accepted from a contractor who is not licensed under Chapter 9, Division 3, Business and Professions Code, or to whom a proposal form has not been issued.

The attention of bidders is particularly directed to the provisions of Section 7-1.01F of the specifications regarding the use of domestic materials; and also to the provisions of Section 8-1.01 and 8-1.02 of the specifications, regarding subcontracting and assignment of the contract, respectively.

Plans, forms of proposals, bonds, contract, special provisions and specifications may be examined at the office of the County Surveyor, 5555 Overland Avenue, Building 2, San Diego 23, California. Copies of plans and specifications may be obtained at said office upon payment of $8.00. If payment is made by check, it should be made payable to "County of San Diego". **No refund will be made.**

No bid will be received unless it is made on a form furnished by the County Surveyor and accompanied by the security referred to therein. Forms of bid proposal and bonds may be obtained at the County Surveyor's office.

The Board of Supervisors reserves the right to reject any or all bids, and the right to waive irregularities or informalities in any bonds or in the bidding.
